Description

This is a good flow drill that gets players involved with a lot of skating and passing, ending in a 2 on 1 or a 2 on 2 situation. To set up the drill place all the puck at the blue line as shown. The drill starts by F1 passing to F2. F2 makes a pass right back to F1. F1 and F2 criss-cross as they make these first two passes. D1 starts the drill at the blue line and skates to center ice on the whistle. F1 and F2 regroup with D1 and then regroup with each other. D1 steps up to eliminate the gap and takes F1 and F2 in a 2 on 1 situation. You can also run 2 defense to make it a 2 on 2 situation.
