Title : Breakout Backcheck Drill

Content elements :

Components:

Key points :

breakout passes	backchecking	cover players without the puck	

Description

On the first whistle, D1 carries the puck around the net and makies a breakout pass to F1. BK starts on their knees at the inside hash marks and waits for the second whistle. On the second whistle, BK backchecks against F1.When F1 receives the breakout pass from D1 they make another pass to D2 at center ice. BK has to try and make the return pass back to F1 as dificcult as possible. If F1 is able to get the return pass from D2 then they can go in and take a shot.
