Description

P1 starts this drill by skating towards P3 and receives a pass from P3. P2 follows closely behind P1 and when P1 receives th pass from P3 they give a pass right back to P3. P1 and 2 they curl to the outside of the dots making sure to face the P3 and expect a return pass. When P1 or P2 receive a pass from P3 then they make one pass through the neutral zone before taking a shot on net. Both players should stop at the net. Right after P3 gives the return pass to either P1 or P2 then P3 and P4 start the same thing going the other direction.
