Description

This is a good drill for winger to work on getting the puck of the boards quickly. This drill is a one on one drill, but it can easily be adapted into a 2 on 1 or 2on 2. The drill starts when F1 passes to D2. D2 then makes a pass to D1 and D1 takes a shot on net. Right after F1 passes to D2, they shoot the puck around the boards where F2 needs to collect and control the puck. F2 then takes on D1 in a 1 on 1 full ice situation.
