Description

This is a good flow warm up drill with some quick passes and a long shot on net. This can be run on both sides of the ice as long as opposite corners go at the same time. Place four lines at the blue lines along the boards each with a pile of pucks. P1 starts by stepping out along the blue line and receiveing a pass from P2 in the other line. P1 receives that pass and makes a quick pass right back to P2. When P2 receives the pass they step out along the blue line to create a better passing angle to P1 as they swing up along the boards. P2 makes a return pass to P1 and P1 goes in for a long shot on net. P2 starts when P1 has crossed the blue line.
