Description

This is a good warm up shooting drill if you only have one goalie. To set up the drill P1 starts with the puck and makes a pass to P2 and skates towards P2. P2 gives a pass back to P1 and then P1 gives it back to P2. After the second pass to P2, P1 receives a pass from the coach just before the blue line and goes in for a shot. After P2 receives the pass from P1 they make a pass to P4, P4 gives it back to P2 as P2 is skating towards P4. P4 gives it back to P4 and then opens up for a pass from the coach. Therefore you only use 1 puck for the middle and the players receive passes from the coach as they go in for the shot. The animation shoud be much easier to understand than the diagram.
