Description

This drill focuses on footwork, puck control, and passing. D1 starts the drill by passing to D2 and skating through the cones. As D1 skates through the cones they have to always face D2. D2 side steps their way down the blue line and performs as many give and go passes with D1 as possible. After the last cone, D1 passes to D2, gets the puck back and goes in for a shot on net. the two players then go to the opposite lines.
