2 VS 2 CORNER BATTLE TAG UP

Time: **Station:**

The 2 vs. 2 Corner Battle Tag up is a competitive game that requires to players protect the puck and utilize their teammates in a small area. This game has one major item to remember, during a change of possession, the team that got the puck must tag up at the goal line before they can try to score. Below we will discuss the setup, coaching points & variations.

Setup

- Place the net by the corner face-off dot and have it face the corner (as shown in the video & diagram).
- Start the game by having a coach chip the puck into the corner while 2 players from each line jump into the playing area.
- Both teams are trying to score a goal and if the defensive team gets the puck, they MUST tag up at the red line before they can shoot on net.
- Have players that are not participating be on the lookout for loose pucks (they can push pucks back into the playing area) and be aware of shots.
- Let players battle for 15 - 45 seconds before switching to next group.
- Keep score so teams are more competitive!

Coaching Points

- Get low to be strong on your skates.
- Protect the puck with your body.
- Communicate with your teammates.
- Defenders need to keep sticks on the ice at all time.
- Forwards without the puck need to jump to open space to be an outlet for their teammates.

Variations

•This setup can be 1 v 1 or 2 v 2. View a 1 on 1 example.
•Can move the net in other areas to give the players more or less space.
