BATTLE DOME 1 ON 1

Time: **Station:**

Objective

To develop puck protection and offensive playmaking skills in tight spaces while reinforcing defensive habits such as angling, active stick use, and body positioning. The drill challenges players to compete along the wall, create offense under pressure, and transition quickly from retrieval to attack.

Set-Up

Use one corner of the ice and angle a net facing the corner along the circle. Adjust the net location to create more or less space. Players line up along the boards. One player starts on offense, one on defense. The offensive player begins with a rim retrieval and the two compete 1-on-1 until a goal or a defensive stop.

Offensive Coaching Points:

- Get off the wall
- Use deception to create space
- Protect the puck and make a play

Defensive Coaching Points:

- Maintain good angles
- Use an active stick
- Stay strong with body positioning

Variations:

•Change the net location to modify space and angles
•Progress to 1v1, 2v1, or 2v2
•Have the defensive player complete a clean pass to the coach to earn a win
