BREAKOUT REGROUP SHOOTING

Time: **Station:**

The Breakout Regroup Shooting drill helps players work on breakout principles, edge work, and quick release shooting.

Setup

- Player 1, at the top of the circle passes to Player 2 on the goal line.
- Player 1 pivots and opens up at the boards to get a pass back.
- Player 1 passes back to Player 2 for a give & go and jumps to the slot for a one timer shot.
- After player 1 takes a shot, and plays the rebound, they go to the goal line and wait to receive a pass from Player 3, the next player in line.
- The drill is continuous.

Coaching Points

- Keep stick on the ice to give your teammate a passing target.
- Communicate and call for the puck.
- Keep your head up and scan the ice when heading into breakout position along the boards.
