DEFEND NET FRONT PROGRESSION WITH 2 POINT PLAYERS

Time: **Station:**

Defend Net Front Progression With 2 Point Players is a competitive small area game that works on protecting the net, along with utilizing point players to generate scoring opportunities.

Setup

- Place 2 nets on the goal line as show in the diagram.
- Players play 3 v 3, before they can shoot at their designated net, they must pass to one of their point men.
- The point man must pass to their partner who can shoot or pass but must do so by two touching the puck (one touch stops it, second touch moves it).
- Players who are defending must defend the players at the net front, not the point ment.
