PASS OFF BUMPER UNDERHANDLE WITH SHOT

Time: **Station:**

The Pass Off Bumper Underhandle With Shot it a simple, yet effective drill that helps players practice underhandling a shot in a high percentage scoring area.

Setup

- Set up a bumper in the slot area.
- Players pass the puck off of a bumper, and skate in to collect the puck off of the bumper.
- They can push or pull the puck around the bumper without stickhandling in one motion to get off a quick shot on net.

Coaching Points

- Encourage players to use deception to have the goalies unsure of which side of the bumper the player takes the shot.
- Have players work on getting off a quick shot.
- Players should practice shooting with their eyes up so they can see the open areas of the net.
